The World

Directions: Study the map below. Then answer the following questions.

- 1. Comparing** What do the locations of many areas with the densest populations have in common?

- 2. Drawing Conclusions** Why might many densely populated areas be near the ocean?

- 3. Making Inferences** What effect might climate have on population density?

- 4. Drawing Conclusions** Why might the population density of the southernmost and northernmost areas be low?
